

PRODUCT CARE AND MAINTENANCE

Vacuum Cleaning. Care and Maintenance instructions. Light vacuum cleaning at regular intervals is essential to maximise the life and maintain the appearance of the fabric.

Depth Cleansing. To give your fabric a longer life and keep it looking its best, cleaning is sometimes necessary. Call in a professional cleaner if you can, but if you do decide to do it yourself, use a reputable brand of upholstery shampoo and follow exactly the manufacturer's instructions. Never use soap, ammonia, bleach or other cleaners intended for use on hard surfaces. Do not over wet the fabric.

Removing Stains. If something should get spilt or dropped on your furnishing fabric, the golden rule for removing the stain is speed. Most spots will vanish if treated immediately and not allowed to dry in, so keep the necessary cleaning materials all together in one convenient place. First mop up any excess liquid with absorbent tissue (preferably white) or clean cloth and scoop up dry solids with a spoon. Most stains can be treated with one or two cleaning liquids - dry cleaning fluid or upholstery shampoo. Use the cleaning method shown on the chart. Always work inwards from the edge of the stain to prevent spreading. Use small amounts of cleaning fluid at a time, and blot between applications. Continue until the stain has disappeared. Never rush or panic, work patiently and thoroughly. If the stain cannot be removed, get expert advice from a reputable cleaning organisation.

The above information is compatible for all our woven fabric collections, however for our Polyurethane leatherette product -

Torro/Torro Plus please consider the following:-

For general everyday dirt and typical water soluble stains such as coffee, soft drinks etc, these can be removed by using lukewarm soapy water with a soft clean damp cloth. Do not soak the area, wipe clean with a cloth and clean water. For more stubborn stains and markings such as ink/biro, an alcohol based solution such as white spirit can be used, in moderation along with lukewarm water. Do not use abrasive cloths, brushes or similar and do not use bleach solutions, solvents or chemical based sprays.

Figaro please consider the following:-

For removal of day to day dirt and spillages, wipe clean with warm soapy water, using a soft damp cloth. Avoid using abrasive cleaners or brushes and do not use solvents or aerosol sprays. Diluted alcohol based and diluted Chloride (bleach) solutions can be used for more stubborn stains, following manufacturers guidelines.

FABRIC CLEANING METHOD CHART

TYPE OF STAIN	ORDER OF TREATMENT				TYPE OF STAIN	ORDER OF TREATMENT				TYPE OF TREATMENT
	1ST	2ND	3RD	4TH		1ST	2ND	3RD	4TH	
Beverages	3	4			Lipstick	2	1			1 Upholstery shampoo solution
Bleach	1				Metal Polish	2	1			2 Dry Cleaning fluid
